TABLE I.

Area, Houses and Population.

1. The figures in this Table relate to the whole of the Indian Empire except East Manglun and an unadministered tract in North Arakan, both in Burma, with an aggregate area of about 5,000 square miles, and certain tracts beyond the administrative frontier in Assam and Burma, which are inhabited by Abors, Mishmis, Singphos, Was and other wild tribes.

2. The difference between the total population here shown and that recorded in the pamphlet issued in October 1911, is due to the inclusion of the figures for Kharan in Baluchistan, the enumeration of which was delayed for about six months owing to political reasons.

3. Although situated in Arabia, Aden is administered as a part of the Bombay Presidency. It is therefore included in this Table. Not so the Kuria Muria Islands, Sokotra or the Protected States adjoining Aden on the mainland. Nothing is known regarding the population of the Kuria Muria Islands except that it is very small. The population of Sokotra is roughly estimated at 5,000, and that of the Protected Tribes on the mainland at 607,200. The details are as follows:—Abdali 25,000; Subehi 27,000; Fadthli 35,000; Amiri (Ahl-Radfanshaari, Jabal Jihaf Extra) 50,000; Akrabi 1,000; Upper Aulaki (Sultan and Sheikh) 60,000; Lower Aulaki 20,000; Behan Al Kasab 11,000; Upper Yafai 100,000; Lower Yafai 60,000; Alawi 1,500; Kaiti (All Hadthramaut), Kathiri, etc., 200,000; Wahidi of Balahaf 5,000; Wahidi of Bir Alli 3,000; Irka 200; Haura 300; Haushabi 8,200.

4. The Table does not include the population of French and Portuguese India. The census of French territory was effected on the 10th March 1911, at the same time as that of British India, when it was found to have 282,386 inhabitants (males 138,563, females 143,823, of whom 40,177 were British subjects. Portuguese India, comprising the districts of Goa, Daman and Diu, was enumerated on 31st December 1910, when the census of Portugal was taken. The population of Daman and Diu is noted in the margin. The final figures for Goa had not been ascertained when this table was sent to press but according to the rough additions worked out immediately after the census, the population was 541,074. On this basis the total population of the Portuguese territory would be 602,564.

District.	Persons.	Males.	Females.
Daman .	47,320	23,627	23,693
Diu .	14,170	7,046	7,124

5. Nor does the Table deal with the external States of Nepal, Afghanistan and Bhotan. The population of Nepal according to a census taken by the Durbar in March 1911 is 5,639,092 (2,854,727 males and 2,784,365 females). There has never been an enumeration of the other two States. The population of Afghanistan has been estimated roughly at 4,600,000 and that of Bhotan at 300,000 to 400,000.

6. Details of some of the principal States included in the Agencies and Provincial groups will be found on page 4, where also is shown the population of the areas under British administration in certain Native States.

7. The figures in this Table are based on a detailed enumeration on the Standard Schedule except in the following cases:—

Baluchistan—	
* Tribal areas	771,696
Burma—	
West Manglun . . .	18,562
Kokang	25,604
Unadministered area in Pakokku Hill Tracts	2,123
Karenni Bre Tract . . .	5,717
Kashmir—	
* States under the Political Agent, Gilgit	54,625
North-West Frontier Province—	
Agencies and tribal areas . .	1,604,265
* Malakand Agency (Canal labourers)	4,291
Andamans and Nicobars—	
Andamanese	1,317
Nicobarese (Shom Pen) . .	375

In the tracts marked with an asterisk a simplified form of schedule was employed. Elsewhere the population was estimated. The manner in which the estimates were made is described in the Introduction to the Report Volume.

8. The difference between some of the areas here shown and those in the corresponding Table of 1901 is due partly to the inclusion of the area of the Sundarbans and of several newly enumerated tracts, partly to interprovincial transfers, and partly to corrections made on the basis of recent surveys. There was an error of 5,000 square miles in the area of the border State of Manipur as reported at the last census.

9. The figures for Madras States in this and subsequent Tables, as a rule, include those for Cochin and Travancore. The census of these States was carried out independently, and their statistics do not appear in the Report for the Madras Presidency.

10. In Table XIX at the end of the volume, the more important figures are given for the districts in each province and for Native States not shown separately in the general Tables. For further details regarding these units the local census reports should be referred to.

TABLE II.

Variation in Population since 1872.

1. The population returned at previous censuses has been corrected, as far as possible, in order to allow for subsequent interprovincial transfers. Manipur, which was treated as British territory in 1901, has now been entered under the head States and Agencies. The tribal areas in the North-West Frontier Province have also been shown under the latter head. Sikkim, which in 1901 was classed under Bengal States, is now shown separately. In four cases the figures differ from those now given in the local reports—the Kashmir Superintendent has included in his figures for 1891 the present population of the Frontier Ilaqas which were not then enumerated; in Burma, though the total population of 1891 agrees, there is a small discrepancy in the details by sex, due to the adjustments made locally to allow for internal changes of jurisdiction; in the North-West Frontier Province a discrepancy of ten occurs in the sex details of the 1881 population; and the Rajputana Table includes 167,350 persons enumerated in 1881 in three parganas of the Tonk State who were omitted from the Imperial Tables for that census. These parganas are here treated as enumerated for the first time in 1891, *vide* paragraph 3 below.

2. In some cases the figures entered for 1872 refer to censuses taken in other years, *viz.*, Ajmer-Merwara 1876; Berar, 1867; Coorg, Madras and Mysore, 1871; Punjab, 1868; Oudh, 1869; Cochin and Travancore, 1875.

3. The areas newly enumerated at each census with their population are noted below:—

1911. Unadministered area (the Sema and eastern Angami villages) in the Naga Hills (39,586), in Assam; Makran (71,942), Western Sinjrani country (1,620) and Kharan (22,663) in Baluchistan; Unadministered area in Pakokku Hill Tracts (9,123), West Manglun (18,562) and Kokang (25,604) in Burma; Agencies and Tribal areas, except Malakand, Kurram and Shirani country, (1,604,265) in the North-West Frontier Province.
Total 1,793,365.

1901. Native Tribes (8,393) in the Andamans; South Lushai (26,129) and Manipur (284,465) in Assam; Baluchistan, except Makran, Western Sinjrani country and Kharan, (810,746); Shan States and part of Upper Burma (1,237,749); Malakand (Dir, Swat and Chitral) 8,128, Kurram (54,257) and Shirani country (12,371) in the North-West Frontier Province; the Bhils of Mewar, Kushalgarh and Dungarpur and the Grassias of Sirohi (estimated at 229,839) in Rajputana.
Total 2,672,077.

1891. North Lushai (43,634) in Assam; Upper Burma, excluding Shan States, (2,946,933); Burma Frontier population (116,493); Biloch Trans-Frontier area (5,934) in the Punjab; Kashmir (2,543,952); Chhabra, Pirawa and Sironj parganas (181,135) of the Tonk State, detached districts of Nandwas and Gangapur situated in Mewar (18,118), and the Bhils of Banswara and Partabgarh (estimated at 48,315) in Rajputana; Sikkim (30,458). *Deduct* population in 1881 of the Manipur State (221,070). The schedules of the 1891 census were destroyed in the disturbances which took place in March 1891 before the results had been tabulated.
Net Total 5,713,902.

1881. Convict Settlement of Port Blair (14,628); Manipur (221,070) in Assam; Central India Agency (9,261,907); Hyderabad State (9,845,594); Punjab States (3,861,683); Rajputana Agency (9,934,199).
Total 33,139,081.

4. On pages 9 and 10 details are given of the variation in the population of certain States which are not shown separately in the body of the Table.

5. The figures for Madras States include those for Cochin and Travancore, which are given separately on page 10.

TABLE III.

Towns and Villages Classified by Population.

1. The population here dealt with falls short of that in Table I by 1,622,094 persons in the Agencies and tribal areas of the North-West Frontier Province, where statistics of the number of villages are not available.

2. In this Table, as in Tables I, IV and V, a cantonment adjoining a municipality has been treated as an integral part of it.

3. In the districts in which a revenue and cadastral survey has been carried out, the mauza or survey village has been taken as the census village. Elsewhere it is the residential village, or group of houses bearing a separate name, small outlying hamlets being ordinarily treated as part of the main residential villages to which they appertain.

4. Travellers enumerated in encampments, boats and trains, etc., have, as a rule, been shown separately in this Table, whereas in Tables IV and V they have been included in the population of the town in which the place of enumeration is situated.

5. The figures for Madras States include those for Cochin and Travancore, which are as follows :—

TABLE IV.

Towns Classified by Population with Variation since 1872.

1. For the purpose of this Table a town was defined as including every municipality of whatever size, every cantonment, all civil lines not included in municipal limits, and every other collection of houses permanently inhabited by not less than 5,000 persons, which is of an urban character though not under municipal government. The numerical test, however, was not always strictly applied; some places with less than 5,000 inhabitants were, for special reasons, treated as towns, while others with a larger population were omitted. Some places treated as towns in 1901 have now been excluded, and others have been newly included. The net result of these changes on the urban population is shown on page 22.

2. The towns are grouped in six classes. The first class consists of towns with a population of 100,000 and over, the second with from 50,000 to 100,000, the third from 20,000 to 50,000, the fourth from 10,000 to 20,000, the fifth from 5,000 to 10,000, and the sixth under 5,000. In the first three classes the towns, other than the three Presidency towns which come first, are arranged alphabetically in each class; in the last three only the number of towns and their aggregate population are given.

3. This Table takes in five censuses and gives the net variation for the period 1872—1911 as well as for each intervening decade. As mentioned in paragraph 2 to the explanatory note to Table II, the figures entered for 1872 refer in some cases to censuses taken in other years. Where the first census took place in 1881 columns 8, 12 and 13 are blank. It has been found impossible to ascertain the former population of many of the places now treated as towns for the first time. There are also certain towns where the total population has been ascertained but the distribution by sex cannot be given, so that the population does not agree with the figures in the sex columns.

4. In some towns such as Nagpur, Gaya and Indore, where plague was prevalent at the time of the census, many of the inhabitants were absent from their homes, and the population shown in this Table is far less than it would otherwise have been. The population of some of these towns, according to the returns of a fresh census taken after the epidemic had subsided, is noted below:—

Province.	Town.	Persons.	Males.	Females.
Bihar and Orissa	Gaya	70,423	38,717	31,706
Central Provinces	Nagpur	134,008	70,441	63,567

TABLE V.

Towns arranged Territorially with Population by Religion.

1. This Table shows the territorial distribution of the urban population by religion.

2. As in Table IV, the towns are grouped into six classes according to their population. Those in the first three classes are entered separately in alphabetical order. Those in the last three are not shown in detail: only the total number of towns in each class is given with their aggregate population.

3. The figures for Madras States include those for Cochin and Travancore, which are given separately on page 36.

4. The Column "Others" includes the following:—

TABLE VI.

The Population by Religion.

1. The total population shown in this Table is less than that shown in Table I owing to the omission of 1,608,556 persons (males 852,235, females 756,321) in the North-West Frontier Province who were not enumerated by religion.

2. The general arrangement is the same as in the corresponding Table of the last census. Vedic Theists (Arya Samaj) and Eclectic Theists (Brahmo Samaj) are included in the general total of Hindus, but are also shown separately. The term Animistic denotes the primitive forms of belief which are found among the jungle tribes, Mundas, Santals, Bhils, etc. There is no name for these beliefs in any Indian vernacular, and in practice it is very difficult to draw the line between Animism and Hinduism. The question has been discussed in the Report Volume. Here it must suffice to say that all persons who said they were Hindus, Musalmans or Christians, etc., were recorded as such. Those who did not profess to belong to any recognized religion were entered under the name of their caste or tribe. In the course of tabulation all such persons were treated as Hindus if they belonged to a recognized Hindu caste, however low it might be. Those who belonged to jungle tribes outside the caste system, *e.g.*, Bhils, Khonds, Garos, Todas, etc., were classed as Animists.

3. The figures for Hindu, Musalman and Sikh include the following persons whose caste was shown in the religion column :—

Included in Hindu—156 Barrars, 201 Bawarias, 15 Bhangis, 17 Chamars, 8 Chuhras, 252 Dhais, 181 Gaggars, 60 Gandhilas, 1 Jogi Kampatta, 3 Ramles, 5,989 Sansis, 6 Udasis and 12 Zind Kalianis in the Punjab; 15 Chamars, 2,046 Mehtars and 6 Purbias in the North-West Frontier Province; 968 Chuhras and 18 Sansis in Baluchistan; 2 Sansis and 1 Megh in Kashmir.

Included in Musalman—15 Rabs in the Punjab and 84 Chuhras in Kashmir.

Included in Sikh—4 Mazhabis in the Punjab.

4. In addition to the Aryas shown in column 11 there were 63 Sikh Aryas (males 28, females 35) in the Punjab who have been included in column 17.

5. The head "Minor Religions and Religion not returned" includes the following :—

TABLE VII.

Age, Sex and Civil Condition by Religions.

1. The age shown in this Table represents the number of years completed and not the current year of age. Divorced persons have been entered as "Widowed." Persons recognized by custom as married have been shown as such, even though they have not gone through any formal ceremony.

2. The Table is divided into two parts. Part I contains the statistics for the total population of India and for each religion. Part II contains the statistics for the total population and three (numerically) most important religions of the main Provinces and States.

3. The population here dealt with falls short of that in Table I by 2,512,703 persons enumerated in tracts where age and civil condition were not recorded, as noted below :—

	Persons.	Males.	Females.
Included in Tables I and VI.	*904,147*	*485,378*	*418,769*
Andamans and Nicobars	1,692	818	874
Baluchistan	352,218	190,583	161,635
Burma	76,134	38,023	38,111
Baluchistan States	419,478	226,565	192,913
Kashmir State	54,625	29,389	25,236
Included in Table I, but not included in Table VI.			
North-West Frontier Province	1,608,556	852,235	756,321
Total	**2,512,703**	**1,337,613**	**1,175,090**

4. The distribution by religion of the 904,147 persons omitted from this Table but included in Table VI is as follows :—

Hindu	17,548	9,992	7,556
Arya	1	1	..
Sikh	3,371	1,823	1,548
Buddhist	225	133	92
Musalman	805,371	434,733	370,638
Christian	7	5	2
Animistic	77,624	38,691	38,933

A further difference between the number of Hindus, Aryas and Brahmos as shown in this Table and in Table VI is due to the fact that in the Punjab the figures for Aryas (Total 100,783, males 57,928, females 42,855) and Brahmos (Total 700, males 396, females 304) were amalgamated with those for Hindus.

5. Jews, who were shown separately in Table VI, have here been included in "Minor and Unspecified."

6. The figures for Madras States in Part II include those for Cochin and Travancore.

TABLE VIII.

Education.

1. This table, like Table VII, is divided into two parts. Part I is a summary statement for the whole of India. Part II contains the statistics for the total population and three main religions of the larger Provinces and States. The figures for persons literate in English (columns 11 to 13) are included in those for total literate (columns 5 to 7).

2. The population here dealt with falls short of that shown in Table I by 1,741,007 persons (males 920,465, females 820,542) as detailed in the margin and of that shown in Table VI by 132,451 persons, *viz.* :—Hindu, 399 males, 47 females; Arya, one male; Sikh, 24 males, 2 females; Buddhist, 133 males, 92 females; Musalman, 28,977 males, 25,145 females; Christian, 5 males, 2 females, and Animistic, 38,691 males, 38,933 females. A further difference between the number of Hindus, Aryas and Brahmos as shown in this table and in Table VI is due to the fact that in the Punjab the figures for Aryas and Brahmos were amalgamated with those for Hindus. As in Table VII, Jews who were shown separately in Table VI, have been included under the head "Minor and Unspecified." This table includes 771,696 persons in Baluchistan who were omitted from Table VII. The figures for Madras States in Part II include those for Cochin and Travancore.

TABLE IX.

Education by Selected Castes, Tribes or Races.

1. This table has been prepared for all Provinces and States except the Andamans and Nicobars. Its object is to throw light on the progress made in education by the different classes of the community. In the Provincial volumes all the more important castes have been dealt with. In this Table for the whole of India statistics are given only for a sufficient number of castes to illustrate the degree of education in the various social strata. The statistics for Ajmer-Merwara, Coorg and Sikkim have here been left out of account, as the number of persons dealt with is relatively insignificant. The figures for Provinces include those for the States attached to them, except in the case of Bombay, where this Table was compiled for British Territory only, and Madras, where they exclude those for Cochin and Travancore.

2. Within each Province, State or Agency, the castes are arranged in order of merit, *i.e.* according to the proportion of literate persons in each.

3. As in Table VIII, the figures for persons literate in English (columns 8 to 10) are included in those for total literate (columns 5 to 7).

4. The total strength of a caste in this Table does not necessarily tally with that in Table XIII, as the latter includes figures added in the course of classification which the present Table does not. The strength of a few castes is also not the same as in Tables XII-A and XIV owing to the fact that figures have been compiled for different local areas. Finally the same castes have not always been selected for the purpose of each of the three Tables.

TABLE X.

Language.

1. The population dealt with in this Table falls short of that in Table I by 1,663,181 persons who were enumerated in tracts where language was not recorded, *viz.*, 54,625 in the Gilgit Agency in Kashmir and 1,608,556 in the Agencies and Tribal areas of the N.-W. F. Province. The figures for Madras States include those for Cochin and Travancore which are detailed at page 119.

2. The areas which have been included in this Table for the first time are as follows :—

Assam—Sema and Eastern Angami Villages in the Naga Hills.

Baluchistan—The whole except the areas (population 48,707) which were enumerated in 1901 on the standard schedule.

Burma—Karenni, Kachin districts of North Hsenwi, Chin Hills, Pakokku Hill Tracts, West Manglun and Kokang; and parts of Bhamo, Myitkyina, and Upper Chindwin.

Punjab—Biloch Trans-Frontier area.

3. The Table is divided into four parts. Part I is a general statement showing the number of persons who speak A. Vernaculars of India, B. Vernaculars of other Asiatic countries and Africa and C. European languages. In Part II the languages are arranged according to linguistic families. Part III shows the territorial distribution of each language and Part IV the linguistic distribution of the inhabitants of each Province, State or Agency. In Parts III and IV the languages have been arranged alphabetically. The more important dialects are shown in italics below the languages to which they appertain.

4. Dialects have been dealt with in the manner indicated in the Index of Indian languages printed at pages 261—292 of the India Administrative Volume, 1901, with such modifications (suggested by Sir George Grierson) as have been found necessary in view of the progress since made by the Linguistic Survey. In a few cases, as noted below, this later information was not available in time for use in the Provincial Language Tables, and the classification here made differs from that adopted in the Provincial volumes :—

Language.	Classification in the Provincial Tables.	Classification in the India Table.	Language.	Classification in the Provincial Tables.	Classification in the India Table.
Ahirwāti	Western Hindi	Rājasthāni.	Lahāni, Lalānki or Lamāni	Gipsy	Rājasthāni.
Bahrūpiā	Gipsy	Ditto.	Megh	Burmese	Arakanese.
Banjārī or Labhāni	Ditto	Ditto.	Mālvi	Gujarāti	Rājasthāni.
Bāori	Ditto	Bhil.	Panchāli	Marāthī	Bhil.
Bhīlālī	Rājasthāni	Ditto.	Pārdhi or Tākankāri	Gipsy	Ditto.
Chārani	Gipsy	Ditto.	Siyālgiri	Gujarāti	Ditto.
Gujari	Western Pahāri	Ditto.	Western Pahāri	Western Group	Northern Group.

5. At the last census persons returning Hindī as their language were classified in some provinces under the three heads Western Hindī, Eastern Hindī and Bihārī with reference to their birthplace. On the present occasion it has been thought desirable to relegate all such manipulation of the census figures to the Subsidiary Tables in the Report Volume. Consequently all persons returning their language as Hindī without further specification have been shown under this head without any attempt at classification. The figures under Western Hindī, Eastern Hindī and Bihārī in this Table include only those persons whose language is known from the entries in the language column of the Schedule, to fall under one or other of these heads. Thus the figures for Western Hindī include persons whose language was returned as Bundēlkhandī, Urdū, Brij Bhāshā, etc.; and Bihārī includes those returning Bihārī, Pūrbī, Māgadhī or Maithilī as their language.

6. The following statement shows the designations under which certain languages and dialects which are known by more than one name have been entered in Parts III and IV of the Table :—

TABLE XI.

Birthplace.

This Table is divided into four parts:—

Part I—Is a general summary giving for the whole of India and for each Province, State or Agency the number of persons born in India, in other Asiatic countries, in Europe, in Africa, and so on. The distinction made in 1901 between Asiatic countries adjacent to India and other Asiatic countries has not been maintained. Some countries are adjacent in a geographical sense, but the bulk of the migration which takes place follows other channels than the common boundary. This is the case for instance with China and Persia.

Part II—The general groups of Part I are here distributed amongst the particular countries of which they are made up, and details are given for the whole of India and for each Province or State, showing the number of persons born in different parts of India, in Afghanistan, China, the United Kingdom, Cape Colony, Canada, etc.

Part III—Illustrates internal migration. Column 2 gives the total number of immigrants, that is to say of persons born in other parts of India, who were enumerated in the Provinces or States entered in the first column. Column 3 treats as emigrants those persons other

each case, and the subsequent columns give particulars of the net interchange of population which goes to make up the balance for or against any given Province or State. The details working up to the totals will be found in Part II. To take a simple instance—46 persons born in Ajmer-Merwara were enumerated in Assam, and 6 persons born in Assam were enumerated in Ajmer-Merwara. The difference 40 represents the net emigration from Ajmer-Merwara to Assam and appears first in column 5 as the net gain of Assam from Ajmer-Merwara, and again in column 7 as the net loss of Ajmer-Merwara to Assam. Of the gross figures 46 is shown with details of sex in Part II under Assam, while 6 is entered under Ajmer-Merwara. As Part III deals only with internal migration, immigrants born outside India (including French and Portuguese Settlements) as well as those Indians whose birthplace was not specified are excluded from the statistics. An attempt will be made in the body of the Census Report to strike a balance between immigration and emigration for India as a whole.

Part IV—Shows the distribution according to the place of Enumeration at the census of the persons born in each Province, State or Country.

2. In Parts II, III and IV Cochin and Travancore have been treated as separate units, but under each Province, State or Country their figures have been included, except where otherwise stated, in those for Madras States.

TABLE XII.

Infirmities.

1. This Table is divided into two parts. Part I contains a general summary showing by Provinces and States the total number of persons recorded as suffering from each infirmity. Part II shows the distribution of these persons by age for India and the main Provinces and States.

2. The procedure adopted in the different Provinces and States in dealing with persons suffering from more than one infirmity has not been quite uniform. As a general rule, they were shown separately under each head, but were counted only once for the purpose of columns 2 to 4 of the Table. The population afflicted does not therefore correspond with the aggregate of the figures for the several infirmities. Further details regarding persons afflicted with more than one infirmity will be found on page 162.

3. In Burma infirmities were not recorded in the Pakokku Hill Tracts or in the estimated areas of Karenni, West Manglun and Kokang. Nor were they recorded in the States under the Political Agent, Gilgit, in Kashmir; nor in the Agency Tracts (including British Posts) in the North-West Frontier Province; nor in the estimated population of the Andaman and Nicobar Islands. The population of these tracts is noted on the margin.*

	Persons.	Males.	Females.
*Total	1,754,545	933,106	821,439
Andamans and Nicobars	1,692	818	874

N.-W. F. Province	1,622,094	864,876	757,218
Kashmir	54,625	29,389	25,236

4. The figures for Madras States include those for Cochin and Travancore which are as follows:—

State.	Population affected.		Insane.		Deaf-mutes.		Blind.		Lepers.	
	Males.	Females.	Males.	Females.	Males.	Females.	Males.	Females.	Males.	Females.
Cochin	1,270	994	156	137	178	153	609	576	332	129
Travancore	2,508	1,445	349	279	588	405	724	493	847	268

5. In addition to the infirmities for which information was collected throughout India, 4,217 persons (2,393 males and 1,824 females) were recorded as afflicted with elephantiasis in Travancore.

NOTE.—The figures in this statement include the States attached to each Province, but those for Madras exclude Cochin and Travancore.

In Ajmer-Merwara, Rajputana and Kashmir persons suffering from more than one infirmity were counted twice or three times over for the purpose of columns 2 to 4. In the remaining provinces and states such persons were treated as suffering from one infirmity only, the others being ignored. In Bombay this procedure has resulted in the omission from the Table of 11 (9+2) blind persons who were also lepers and of 45 (41+4) who were also insane; of 4 (1+3) deaf-mutes who were also lepers, 155 (134+21) who were also insane and 128 (15+13) who were also blind.

TABLE XII-A.

Infirmities by Selected Castes, Tribes or Races.

1. The principle followed in selecting castes for this Table is practically the same as that described in the explanatory note to Table IX. For the reason there given the total strength of a caste in this Table does not necessarily tally with that in Table XIII.

2. Within each Province, State or Agency the castes are arranged in alphabetical order.

3. The statistics for Ajmer-Merwara, Andamans and Nicobars, Coorg and Sikkim have been omitted, as the number of persons there dealt with is relatively insignificant. The figures for Provinces include those for the States attached to them, except in the case of Bombay, where this Table was compiled for British Territory only, and Madras, where they exclude the figures for Cochin and Travancore.

TABLE XIII.

Caste, Tribe, Race or Nationality.

1. Table XIII of the last census contained statistics for all castes and tribes. It was found, however, that the compilation of figures for a great number of minor groups, many of which contained only an insignificant fraction of the population, involved an undue expenditure of time and labour. On the present occasion, therefore, permission was given to the Provincial Superintendents to lump together as 'Others' the minor groups which contain only an insignificant fraction of the population. Advantage was taken of this permission in Ajmer-Merwara, Bengal, as it stood at the time of the census, Bombay, Burma, the United Provinces, the Rajputana Agency and the Hyderabad State. In the other Provinces and States a complete Table was prepared. In this Table for the whole of India, the minor groups, including those with a strength of less than 500, have in all cases been left out of account. Nor does the Table include Christians, who are specially dealt with in Tables XVII and XVIII, or any Hindu caste in Baluchistan.

2. This Table is divided into two parts. Part I contains a general list of the castes and tribes with their distribution by religion and locality, while Part II shows the principal castes in each Province, State or Agency. In Burma the distinction by religion was not preserved, and where a caste or tribe is divided between two religions, it has been entered under the religion acknowledged by the majority.

3. The difficulties which attended the classification of castes for the purpose of Table XIII in 1901 were explained on the title page of that Table. On the present occasion the index of caste classification at pages 538 to 592 of the India Tables volume of that census was carefully examined beforehand by the Provincial Superintendents, who also prepared for their respective Provinces and States a caste index similar to the one prepared in Bengal in 1901. In this way the difficulties inseparable from a work of this kind have been greatly reduced. They could not, however, be altogether removed, as in many cases it is almost impossible to say whether groups which seem to be connected with each other should be combined or kept separate. In such cases the procedure usually adopted has been to keep them separate and give cross-references, *e.g.*, Bansphor and Dom, Chuhra and Bhangi. Where the same group is known by several names it has been shown in Part I under the one most generally current, the other names being added in brackets. For example, Hajjam (Nai and Napit), Dhuniya (Bahna, Nadaf), Hari (Bhuinmali) and so on. In Part II each caste has been shown under the name most common in the Province or State concerned.

TABLE XIV.

Civil Condition by Age for Selected Castes.

1. This Table contains statistics of civil condition by age for selected castes and tribes, whereas Table VII deals with the total population. The object of the table is to illustrate the relative prevalence of infant marriage and the prohibition of the remarriage of widows among the various social strata in different parts of India. For the reason given on the title page of Table IX the total strength of a caste in this Table does not necessarily tally with that in Table XIII.

2. Within each Province, State or Agency the castes are arranged according to the frequency of infant marriage, *i.e.*, according to the proportion which the number of married females under 12 years of age bears to the total female population. As in Part II of Table XIII, each caste has been shown under the name most common in the Province or State concerned.

3. The figures for Provinces include those for the States attached to them, except in the case of Bombay, where this Table was compiled for British territory only, and Madras, where they exclude the figures for Cochin and Travancore.

TABLE XV.

Occupation or Means of Livelihood.

PART A.—GENERAL TABLE OF OCCUPATIONS.

1. For the purpose of this Table a new scheme of classification, based on that drawn up by M. Bertillon, has been adopted at the present census. All occupations are divided according to this scheme into four main Classes and sub-divided into twelve sub-classes, 55 Orders and 169 Groups. For further explanation Chapter XII of the Report Volume should be referred to.

2. This Table is divided into five parts, *viz.*—

Part A.—General Table of Occupations.

Part B.—Number of Agriculturists with subsidiary Occupations (Actual Workers only).

[Part C.—Number of persons following selected subsidiary Occupations combined with certain principal Occupations. This Part, the compilation of which was optional, was not prepared in all provinces, and even where prepared the occupations selected were not always the same. A consolidated table for India as a whole could not therefore be compiled.]

Part D.—Distribution of Occupations by religion.

Part E.—Statistics of Industries. The scope of this Part is explained in the explanatory note prefixed to it.

3. Part A is further sub-divided into two sections. The first section contains a general summary giving the total strength of each Class, Sub-class, Order and Group for (*a*) India as a whole, (*b*) British territory and (*c*) States and Agencies. The second section gives for each Province, State or Agency the total strength of each Class, Sub-class and Order, and also of those groups the total strength of which is at least 50,000. In this section, to economize space the sex details have been dispensed with except in respect of the total number of Actual workers, while for the selected groups figures for 'Total Workers and Dependants' only have been given.

4. The population dealt with falls short of that in Table I by 1,686,382 persons who were enumerated in tracts where occupation was not recorded, *viz.*:—Andamans and Nicobars (1,692), Burma (76,134), and the Agencies and Tribal areas in the North-West Frontier Province (1,608,556). The figures for Madras States in section (ii) of this Part include those for Cochin and Travancore, separate figures for which by Orders will be found on page 316.

TABLE XV.

Occupation or Means of Livelihood.

PART B.—NUMBER OF AGRICULTURISTS WITH SUBSIDIARY OCCUPATIONS.

1. This Part shows the number of actual workers in Groups 1 (rent receivers), 2 (rent payers) and 4 (field labourers) who have subsidiary occupations. These details are not available for the Andamans and Nicobars and the Frontier Ilaqas in the Kashmir State. Hence the total number of actual workers here shown does not quite agree with that given in Part A, section (i).

2. The figures for Provinces include those for the States attached to them, except in the case of Madras, where they exclude those for Cochin and Travancore which are shown separately.

TABLE XV.

Occupation or Means of Livelihood.

PART D.—DISTRIBUTION BY RELIGION.

1. This Part, the compilation of which was optional, was prepared for the Provinces, etc., noted on the margin. Statistics have been given for all these units, but to economize space details for groups have been dispensed with.

Assam.
Baluchistan.
Bengal.
Bihar and Orissa.
Burma.
C. P. and Berar.
Punjab.
United Provinces.
Baroda State.
Central India Agency.
Cochin State.
Hyderabad State.
Kashmir State.
Travancore State.

2. In Burma occupations were not recorded in the Pakokku Hill Tracts or in the estimated areas of Karenni, West Manglun and Kokang. The population of these areas has therefore been omitted. As in Tables VII and VIII, the figures for Hindus in the Punjab include Aryas and Brahmos.

TABLE XV.

Occupation or Means of Livelihood.

PART E.—STATISTICS OF INDUSTRIES.

1. Parts A to D of Table XV which were compiled from the general schedules give the main functional distribution of the people. The statistics in this Part regarding various industrial concerns, such as mines, mills, etc., were collected in a special schedule, which was filled in by the owners or managers of all factories, etc., in which at least 20 persons were employed on the date of the Census. This Part is divided into two sections. Section I contains information for the whole Empire regarding each kind of factory, etc., distinguishing between those factories in which mechanical power is used and those in which it is not, and classifying them according to the number of persons employed. Section II gives for each Province, State, or Agency the number of persons employed in each kind of factory, etc., without these details. In the corresponding Table in the Provincial Volumes two more sections have been added showing the caste and nationality of the owners and managers of important concerns.

2. For the purpose of this Part the various industrial undertakings have been divided into 16 main heads and 111 sub-heads, minor concerns not falling under these sub-heads being grouped together as 'Others.' When two or more industries are combined in one factory, the classification has usually been made with reference to the first named in the return: thus, a cotton ginning and rice husking and flour mill has been classed under "Textile Industries (cotton)." Certain factories in the United Provinces in which hand-power or bullock-power is used have been classed in the Provincial Table as factories having mechanical power. They have here been classed with those in which mechanical power is not used. The Upper Jhelum Canal construction, which was wrongly included in Kashmir Table XV-E, has been omitted from this Table.

3. The Statement below shows the factories, etc., which have been included in 'Others' under each main head:—

I.—Growing of Special Products.

Casuarina Plantation.
Cinnamon Plantation.
Copra Out-agency.
General Produce curing yard.
General Produce Work.
Harra Factory.
Pepper Estate.
Sugarcane Plantation.

II.—Mines.

TABLE XVI.

Occupation by selected Castes, Tribes or Races.

1. This Table was not compiled in the Andamans and Nicobars; while in Ajmer-Merwara, Burma, the North-West Frontier Province and Rajputana it was compiled only for Europeans, Anglo-Indians and Armenians. The present Table for all India contains a selection from the various Provincial tables. It is divided into two parts. Part I deals with the indigenous castes and tribes and Part II with Europeans, Anglo-Indians and Armenians. To economize space, figures for the smaller units, such as Baluchistan, Coorg, Cochin, etc., have been omitted from Part I.

2. For the purpose of this Table the occupations have been arranged under 13 main heads corresponding to the sub-classes of the scheme of classification adopted in Part A of Table XV: these heads have been subdivided where necessary, in order to distinguish between different occupations. Columns 7 to 10 of Part I are intended to throw light on the extent to which the traditional caste occupations are followed. The object of columns 11 and 12 is to make it possible to discount the tendency of functional castes to return their traditional occupations as their means of livelihood. Except in Bombay, where the contrary course has been followed, the figures in the subsequent columns are exclusive of the number of actual workers shown in columns 7 and 8 as following the traditional occupation. Statistics for columns 9 to 12 were not compiled for Bihar and Orissa, nor for the Presidency and Burdwan Divisions, Darjeeling and Cooch Behar in Bengal, nor for the State of Cochin.

3. Within each Province, State or Agency the castes are arranged in alphabetical order. The figures for Provinces include those for the States attached to them, except in the case of Bombay, where this Table was compiled for British territory only, and of Madras, where they exclude those for Cochin and Travancore. For the reasons given on the title page to Table IX the total strength of a caste in this Table does not necessarily tally with that in Table XIII.

4. As already noted, the statistics for Europeans, Anglo-Indians and Armenians are given separately in Part II of the Table. Such statistics were not compiled in Travancore, and in Cochin they were tabulated in a different form and so could not be incorporated here. In Baroda figures for Europeans and Anglo-Indians were amalgamated, while in Bombay they were compiled only for the Anglo-Indians in Sind. Columns 7 to 12 of Part I have been omitted from this Part.

5. Some supplementary statistics similar to those at pages 502-506 of the Bengal Census Tables for 1901 showing the distribution by caste of certain occupations have been compiled in Assam, Bengal, Bihar and Orissa and the Punjab. They have not been reproduced here.

TABLE XVII.

Christians by Race and Denomination.

1. This Table is divided into three parts:—Part I shows, by race, the total number of Christians in India distributed (*a*) according to their sect or denomination and (*b*) by locality. Part II shows the denominations returned by the Christian community of each Province, State or Agency and Part III gives the territorial distribution of each denomination. The term Anglo-Indian is used under the orders of the Government of India to designate the persons hitherto known as Eurasians. It includes all persons of mixed European and Asiatic descent. Goanese, when shown as such in the schedules, have been treated as Indian Christians; but some, no doubt, returned themselves as Portuguese or Eurasians. The Feringis of East Bengal (males 593, females 609) and of Assam (males 4, female 1) have been classed as Anglo-Indians for the purpose of this Table, but not so in Table XVIII. Armenians have here been grouped with "European and Allied Races;" their number will be found in Table XVIII.

2. Many denominational names were entered in the schedules other than those shown in this Table. The headings under which they have been tabulated are noted at the end of the Table.

3. The Christians of the following five missions are now organized as one body under the name of the "South India United Church," *viz.*, the United Free Church of Scotland Mission in and about Madras, the Arcot Mission of the Reformed Church of America in the Arcot and Cuddapah districts, the American Madura Mission and the two great branches of the London Missionary Society—the Travancore Mission and the South India District Committee Mission. In order to permit of comparison with the returns of previous censuses, the adherents of each Mission have been shown according to its original denomination but it should be understood that the sectarian differences connoted by these names are now a thing of the past. For further information on this subject the Report Volume should be referred to.

4. The figures for Madras States include those for Cochin and Travancore.

Strictly speaking persons of Indefinite Beliefs should not be shown at all in Table XVII. Persons returned under the above heads, however, are usually Europeans, or Natives of India who have derived their religious views from Europeans, and it is convenient to show them here. All the persons classed under this head in Travancore are adherents of the Yuyomayam sect, a curious offshoot from Christianity of which an account will be found in the Report Volume.

TABLE XVIII.

Europeans, Armenians and Anglo-Indians by Race and Age.

1. The number of European and allied races given in this Table exceeds that shown in Table XVII owing to the inclusion of ten European males in Burma and one American female in Kashmir who were not returned as Christians. In Table VI the former were entered as Buddhists and the latter as Brahmo.

2. The difference of 1,206 in the number of Anglo-Indians is due to the exclusion from this Table of the marginally noted * Feringis who were classed as Anglo-Indians in Table XVII, and to the inclusion of one Anglo-Indian male in Kashmir who was entered as Musalman in Table VI.

TABLE XIX.

Summary Figures for Districts.

1. This Table contains for easy reference a few of the salient figures for the individual Districts or States in each Province, State or Agency. For further particulars regarding these minor units the Provincial Census Reports should be referred to.

2. The figures for States in political relation with Local Governments are given below those for the British territory administered by the same Local Government.

3. The figures for the Central India Agency in this Table include those for the Gangapur pargana of Gwalior and Nandwai pargana of Indore, which are situated in the Mewar State of the Rajputana Agency. This is why there is a discrepancy between the area and population of the Central India and Rajputana Agencies as here shown and the corresponding figures in Imperial Table I.

SPECIAL TABLES FOR CITIES.

A series of tables in the form of Imperial Tables VII, VIII, XI, XV and XVIII have been prepared for all cities. The term city is here used in its ordinary statistical acceptation, and includes only those places which contain a population of not less than 100,000 persons. In the Provincial Volumes smaller towns of local importance have sometimes been treated as cities.

In these Tables the population of Calcutta is exclusive of that of its suburbs—Cossipore-Chitpur, Manicktola and Garden Reach, and that of Bareilly excludes its cantonment.

TABLE VII.

Age, Sex and Civil Condition.

TABLE XI.

Birthplace.

In this Table figures for Assam, Bengal and Bihar and Orissa as now constituted could not be given in all cases, as in many Provinces the Table was compiled long before the new arrangement of Provinces had been announced. Bengal (Old) and Eastern Bengal and Assam therefore appear in this Table in some cases.

The figures for Madras in this Table are exclusive of those for Cochin and Travancore.

TABLE XV.

Occupation or Means of Livelihood.

This Table contains occupation statistics for each Class, Sub-Class, Order and Group in the Classified Scheme for the aggregate population of all cities taken together, and also separate figures for each of ten important cities. For the corresponding figures for the remaining cities the Provincial Volumes should be referred to. Actual Workers have been distinguished from Dependants, but sex details have been given only in the summary for all cities.
