TABLE I.

AREA, HOUSES AND POPULATION.

THIS table shows for each district the area, the number of towns and villages, the number of occupied houses and the total urban and rural population, male and female.

2. The districts are arranged in this and other tables in the order of their importance, *viz.*, Baroda, Kadi, Navsari and Amreli.

3. Baroda Cantonment is treated as a part of the Baroda City. Separate figures for it are given only in Tables IV and V below those for the City as a whole.

4. The difference between some of the areas here shown and those in the corresponding table of 1901 is due to the completion of Survey Operations in some of the Talukas surveyed or resurveyed during the decade.

5. Population statistics by religion and literacy for Mahals (Talukas) and Peta Mahals are given in Provincial Tables I and II at the end of this Volume.

TABLE II.

VARIATION IN POPULATION SINCE 1872.

This table compares the population as now ascertained with that of the four previous censuses. The figures for the first two censuses differ slightly from those shown in the reports of those censuses owing to change of jurisdiction of some places. The effect of these changes has been calculated and the figures have been adjusted accordingly in the later censuses.

2. The following are the places which have undergone change of jurisdiction :—

Between 1872 and 1881—

Chandod (from Baroda District)—1,744 Males, 1,672 Females, Total 3,416 (to Rewa Kantha Agency).

Deesa (from Kadi District)—682 Males 641 Females, Total 1,323.

Between 1881 and 1891

Manekwada Contingent Camp (from Amreli District).	} 1872—Males 995, Females 1,089, Total 2,084 } 1881—Males 1,347, Females 1,439, Total 2,786	} Not censused } subsequently } owing to the } raising of the } camps.

RELIGION.

16 Indians who have returned themselves as Agnostic (2 males), Atheist (2 males), New Dispensation (1 male, 3 females), Theist (1 male) and Neo-Hindu (3 males, 4 females), have been classed as "Hindus."

2. Of those who have returned themselves as Hindus, the claim of 85,566 persons is doubtful. They belong to the various Animistic tribes as noted below and are classed as Hindus simply because they were so returned. Their marriage and other relations are with the rest of their people, who returned themselves by their tribe names and are therefore included among Animistics:—

TABLE VII.

AGE, SEX AND CIVIL CONDITION.

This table is divided into three parts. *Part A* shows the distribution for the State as a whole, of the total population and of each religion by age, sex, and civil condition. *Part B* shows the distribution for districts of the total population and of the main religions by age, sex, and civil condition. *Part C* gives similar details for the City of Baroda.

2. The total of Animists in Parts B and C falls short of one, compared with that in Part A, the reason being that one married male Animist (age 40-45) in the Kadi Division is not shown separately, as it was not thought fit to give the whole age table for one single individual.

TABLE VIII.

EDUCATION.

This table like table VII is divided into three parts. *Part A* shows the extent of literacy in the State as a whole among the total population and for each religion returned; *Part B* gives details for districts for the total district population and for each main religion; and *Part C* gives similar details for the City of Baroda.

2. The table shows the number of persons literate in their own vernaculars. The number of persons literate in English has also been shown separately.

3. Of the 1,114 (males 756, females 358) literate Native Christians, 782 (males 537, females 245) are Protestants and the rest 332 (males 219, females 113) are Roman Catholics.

4. Of the 443 (males 245, females 198) Christians literate in English, 210 (males 112, females 98) are Europeans and Anglo-Indians and 233 (males 133, females 100) are Natives of India.

TABLE IX.

EDUCATION BY SELECTED CASTES, TRIBES AND RACES.

This table repeats the information given in Table VIII in respect of education, with this difference that, whereas in that Table the population is distributed by age and religion, it is here arranged according to caste, tribe or race. Moreover, in Table VIII the whole population is dealt with, but this Table refers only to selected castes, tribes and races; the minor castes, tribes and races have been left out of account altogether. The castes, etc., selected are distributed over the whole State.

TABLE X.

LANGUAGE.

Apart from the Bhil dialects, the only true dialectic variation of Gujarati consists in the difference between the speech of the uneducated and that of the educated. It is usual to give dialect names based upon caste or tribe names or upon the names of localities such as Nagari, the language of the Nagar Brahmans ; Charotari, the language of the Charotar tract on the bank of the Mahi ; Parsi Gujarati, the language of the Parsis ; and Kathiawadi, the language of the people in Kathiawar ; but the differences are so trifling that they do not deserve the name of a dialect. Besides, the great majority of persons speaking these so-called dialects returned their language as Gujarati and only a few named the actual dialect spoken by them. It has, therefore, been thought best to include a few dialects returned under the head "Gujarati" in the body of the table. The number of persons returned as speaking each dialect is shown below :—

TABLE XII.

INFIRMITIES.

1. The infirmities recorded at the Census were insanity, deaf-mutism, blindness and leprosy.

2. The table is divided into two parts. Part I shows the distribution of the persons afflicted according to age and Part II, their distribution according to locality.

3. Some unfortunate persons were returned as suffering from more than one infirmity. In the table they have been shown under each. This explains why the "total afflicted" in Columns 2, 3 and 4 does not quite agree with the total of the figures for each separate infirmity. The following is a list of these double entries :—

				Total.	Males.	Females.
Insane and deaf-mutes	...	...	...	2	1	1
Deaf-mutes and blind	...	...	...	2	1	1
Deaf-mutes and lepers	...	...	...	2	2	...

TABLE XII—A.

INFIRMITIES BY SELECTED CASTES, TRIBES OR RACES.

This table shows the distribution of infirmities in selected Castes, Tribes or Races. Only those castes are included which contain altogether not less than 10 infirmities. The rest have been lumped together and shown as 'others' at the end.

TABLE XIII.

CASTE.

This table is divided into two parts. Part A deals with the Castes and Tribes of Hindus, Animists, Jains and Arya Samajists and Part B with those of the Mahomedans. The figures for Christians are omitted from this table as they are specially dealt with in Tables XVII and XVIII.

2. Persons converted from Hinduism or Muhammadanism to Christianity were returned as "Native Christians" and their caste of origin was not mentioned in the Census Schedules.

3. When some members of a caste or tribe profess one religion and some another, separate figures have been given for each.

4. The names of sub-castes are given below those of the castes to which they belong, and are serially numbered.

5. As far as possible items that did not appear to be true caste names have been eliminated from the return and added to the castes to which they appeared to belong after such inquiries, local and otherwise, as could be made within the limited time available. The more important of these names are mentioned below. A few such as Arya, Indian, &c., whose proper affiliation was uncertain have been grouped as unspecified :—

Name returned.	Males.	Females.	With whom grouped.	Remarks.
Kalghetia ...	12	80	Bharvad ...	Literally black sheep men.
Raj-bharai ...	19	11	Rajput ...	They are Rajputs in the Navsari District who have taken to gold embroidery and are so-called from their occupation.

TABLE XIV.

CIVIL CONDITION BY AGE FOR SELECTED CASTES.

This Table like Table IX deals not with the whole population but with certain selected castes. It includes all the main castes which contribute about 2 per mille of the population of the State and a few others which, though not numerically so strong, are of local importance.

OCCUPATION OR MEANS OF LIVELIHOOD.

In 1901 all occupations were divided into eight main classes ; these classes were sub-divided into twenty-four orders and seventy-nine sub-orders ; and the sub-orders were further divided into 520 groups. The scheme was not only elaborate, but also defective in certain respects, *e.g.*, persons dealing in specified articles were included in various groups (81, 97, 101, 104, 117, 123, 126, 128, 130, &c.) of class D—"Preparation and supply of material substances," while general merchants and shop-keepers otherwise unspecified (groups 396-401) were entered in class E—"Commerce, transport and storage." In the present Census, therefore, the Census Commissioner has introduced a new scheme of classification based on that of Monsieur Bertillon, a prominent European Statistician. This scheme, as revised for India contains 4 classes, 12 sub-classes, 55 orders and 169 groups. In order to make the figures of the present Census comparable with those of the last one, the statistics of the latter are re-arranged in a subsidiary table in the Report Volume.

2. This table is divided into five parts, A, B, C, D and E. Part A is complete in itself and deals with the whole population of the State, as also for the districts. Part B shows the subsidiary occupations of the actual workers among the agriculturists only. Part C shows for certain mixed occupations only, the number of persons who returned each as their (a) principal and (b) subsidiary means of livelihood. Part D shows the distribution by religion of the population of the whole State. It is divided into two Sections. Section I gives the details for districts and Section II details for the City of Baroda. Part E is designed to give information regarding industries and in particular regarding recent industrial developments. The information given in it was collected in a special industrial schedule to be filled up by the owners, managers or agents of factories, mills, etc., in which at least 20 persons were employed on the 10th March 1911. It is divided into four parts. Part I gives information regarding each kind of factory, etc., for the State as a whole, distinguishing between those factories in which mechanical power is employed and those in which it is not, and classifies them according to the number of persons employed. In Part II, the district figures are given without these details. Parts III and IV are designed to show the caste and nationality of the owners and managers of certain important industries, *viz.*, cotton ginning and presses, cotton spinning and weaving mills, and dyeing factories.

TABLE XVI.

OCCUPATION BY CASTE.

This table shows the various occupations which are followed by certain selected castes, tribes and races. In the last Census, the headings of Column 12, etc., of this table referred to the orders or main divisions in the general occupation scheme. On the present occasion seven of the 12 orders (now called sub-classes) are subdivided so as to bring out more clearly the character of the occupations which are followed by the members of the selected castes.

Note.—The figures in Column 13 onwards are exclusive of those in Columns 7 and 8. Asterisks have been placed against the figures in those Columns which are affected by this arrangement.

TABLE XVII.

CHRISTIANS BY SECT AND RACE.

1. This Table shows the sects of Christians of all races.
2. Two European males have returned themselves as Agnostic and are classed under the head "Indefinite beliefs."
3. Firangis (Males 233; Females 110) have been treated as Natives for the purpose of this table and table XVIII.
4. The Government of India having decided that the term "Anglo-Indian" should be used instead of "Eurasian" in the statistics of the present census, those who returned themselves as Eurasians have been entered under the head "Anglo-Indian" in this table and in table XVIII. The term "Anglo-Indian" includes all persons of mixed blood formerly known as "Eurasian" and is not confined to those of British origin.

TABLE XVIII.

EUROPEANS AND ANGLO-INDIANS BY RACE AND AGE.

This Table shows the distribution by districts and in the state as a whole. As in Table XVII, the Firangis (males 233 ; females 110) have been excluded from the figures for Anglo-Indians.

2. Armenians are not to be met with in the Baroda State.

PROVINCIAL TABLE I.

AREA AND POPULATION OF MAHALS (TALUKAS) AND PETA MAHALS.

At the last Census, a distinction was drawn between Imperial Statistics or tables of general interest and Provincial Statistics or the additional tables required in each province for local administrative purposes. The unit of the former was the district, while that of the latter was tahsil, taluka, thana or township. The Provincial Tables were printed in a separate volume, but formed part of the Imperial Series of Census Volumes and were numbered and distributed accordingly. On the present occasion the Government of India consider it unnecessary that the Provincial Statistics, which are compiled for local purposes, should be circulated outside the limits of the Province to which they refer; and they have accordingly decided that they will not form part of the Imperial Series, but will be printed as entirely separate publications. They however consider that it would be desirable to include in the Imperial Series of Tables a few of the main statistics for similar administrative units (talukas, tahsils, etc.,) such as total population, density, variation since 1901, distribution by religion and the number of literate persons. Such figures are of more than local interest, and even when the Provincial Tables are available, it is inconvenient to have to turn to another volume to find them. Provincial Tables I and II have therefore been printed here. Table I gives area and population of the Mahals (talukas) and Peta Mahals, while Table II gives their population by religion and education.

2. The effect of the transfer of villages from, or to Savli, Vaghodia, Dabhoi and Sinore Mahals (in the Baroda Division), Songhad and Vyara (in the Navsari Division), and Dhari Mahal and Khambha Peta Mahal (in the Amreli Division) has been calculated, and the population and other statistics for 1901 have been adjusted accordingly.

3. In the Navsari Division, a new Peta Mahal, Umarpada, is carved out of the old Peta Mahal of Vajpur and the rest of its villages have been amalgamated with the Songhad Mahal. The figures of 1901 have therefore been adjusted to suit the change.

4. Choranda Mahal and Siswa Peta Mahal in the Baroda Division, Vadavli Mahal in the Kadi Division and Shiyanagar Peta Mahal in the Amreli Division were known previously not by the name of the head-quarter town or village, but by the name of the largest village within their limits. These old names have been changed and new names, *viz.*, Karjan, Bhadran, Chansma and Ratanpur have been given to them respectively after the census of 1901.
