TABLE VIII.

EDUCATION.

THIS table shows the extent of literacy amongst the total population and for each religion returned. The test of literacy adopted at the census was the ability to *both* read and write a letter, people, of whatever age, who could write a letter to a friend and read the answer to it being entered as literate, and those who could not as illiterate.

In order to distinguish between Indian Christians and other Christians, such as Europeans, Armenians and Anglo-Indians, statistics of literacy and literacy in English for these two classes are given below :—

TABLE IX.

EDUCATION BY SELECTED CASTES AND RACES.

This table repeats the information given in Table VIII in respect of education with the difference that, whereas in that table the population is distributed by age and religion, it is here arranged according to caste or race. Moreover, in Table VIII the whole population is dealt with and separate statistics are given for Calcutta and the suburban municipalities, but this table refers only to selected castes and races in Calcutta and the suburbs taken together.

TABLE XII.

INFIRMITIES.

THIS table shows the distribution by age of persons suffering from any of the infirmities recorded at the census, viz., insanity, deaf-mutism from birth, blindness and leprosy. Those persons who were returned as suffering from more than one infirmity have been shown under each. Consequently, the number shown for "Total afflicted" in columns 2, 3 and 4 does not always agree with the total of the figures for each infirmity. The following is a list of these double infirmities :—

	Calcutta.			Suburbs.

TABLE XIII.

CASTE, TRIBE, RACE OR NATIONALITY.

THIS table contains statistics of the different castes, tribes, races, and nationalities arranged by religions. It may be explained that the strength of some castes in this Table does not agree with that shown in Tables IX and XIV, as it includes figures added in the course of classification, which the latter tables do not.

* The total for Indian Christians does not agree with that given in Table XIV, as the latter includes Goanese and other Christians, who are here entered separately.

TABLE XIV

CIVIL CONDITION BY AGE FOR SELECTED CASTES.

THIS table contains statistics of civil condition by age for selected castes or tribes, whereas Table VII (Age, Sex and Civil Condition) deals with the total population. There is this further difference between the two tables, that the age periods are not the same, the periods 5-12 and 12-15 being substituted in this table for the periods 5-10 and 10-15 given in Table VII. As in Table IX, the selected castes and tribes are grouped together for Calcutta and the suburban municipalities.

TABLE XV.

OCCUPATIONS.

For this table, a new scheme of classification of occupations, based on that drawn up by M. Bertillon, has been framed by the Census Commissioner. All occupations are divided according to this scheme into four main classes and subdivided into 12 sub-classes, 55 orders and 169 groups.

The table is divided into five parts, A, B, C, D and E. Part A shows the total strength of each group, order, sub-class and class for (1) Calcutta and the Suburbs, (2) Calcutta and (3) the Suburbs. Part B shows the subsidiary occupations of those persons whose main occupation is agriculture. Part C (combined occupations), which is optional, has not been compiled. Part D shows the distribution of occupations by religion. Part E, which embodies the results of the industrial census, is subdivided into four sections. Section I shows the number of persons employed in each kind of industry dealt with, distinguishing between those factories, etc., in which mechanical power is used and those in which it is not, and classifying them according to the number of persons employed. Section II, which shows the number of persons employed in each industry without the above details, is unnecessary for Calcutta and the Suburbs. Sections III and IV show the extent to which different races and castes have taken part in various industrial undertakings.

TABLE XV E.

STATISTICS OF INDUSTRIES.

THIS table furnishes statistics of industrial concerns, such as mills, factories, etc., in which twenty persons or more were employed at the time of the census. Section I shows the number of persons employed in each kind of industry, distinguishing between industrial concerns in which mechanical power is used and those in which it is not. Section II has not been prepared, as it merely repeats the same statistics in less detail. Sections III and IV show the caste or race of owners and managers of industrial concerns.

TABLE XVI.

OCCUPATIONS BY SELECTED CASTES, TRIBES OR RACES.

In this table statistics are given for selected castes and races in Calcutta (excluding the Suburbs), the occupations they pursue being arranged under 13 main heads corresponding to the sub-classes of the scheme of classification adopted in Table XVA. Columns 7 and 8 are intended to throw light on the extent to which traditional caste occupations are followed.

TABLE XVII.

CHRISTIANS BY SECT AND RACE.

THIS table shows the denominations of Christians of all races. The classification, which is prescribed by the Census Commissioner for India, differs from that adopted in 1901, the principal changes being as follows:—

(1) Persons who returned themselves as Protestants without specifying any particular denomination and whose denomination could not be ascertained by means of subsequent enquiries were treated in that year as members of the Anglican Communion and are now classified under the head "Protestants (unsectarian or sect not specified)."

(2) Under this latter head also are shown persons who returned themselves as Dissenter, Nonconformist, Unsectarian or Undenominational. In 1901 the latter were classed under the head "Minor Denominations," which is now reserved for true sects or denominations.

Armenians have been classed in this table under the head "European and allied races." They are shown separately in Table XVIII, from which information regarding their numbers, etc., can be obtained. Under the orders of the Government of India, those formerly known as Eurasians are shown under the head "Anglo-Indians."

Details of the entries grouped together under the head "Minor Protestant Denominations" are given below:—
