TABLE II.

VARIATION IN POPULATION SINCE 1891.

Jammu and Kashmir State Census 1911.

1. The columns relating to the first two regular Indian Censuses have been omitted as this State did not come under those operations. The rough estimate of 1873 is worth no consideration.

2. No comparison could be instituted as regards majority of our districts because of the large territorial changes that have occurred in both the preceding decades and the absence of all village records of the previous enumerations. Full detail of these changes will be found discussed in the Report Volume.

3. The only comparable units are (*a*) Entire State, (*b*) Kashmir Province, (*c*) Kashmir Valley, (*d*) Muzaffarabad and perhaps (*e*) Jasrota Districts and (*f*) Punch and (*g*) Bhadarwah *Jagirs*.

4. For purposes of a rough comparison, however, the figures of the last two censuses have been altered in this way:—In 1901 the present population of Zanskar (persons 4,857, males 2,377 and females 2,480) has been transferred from Jammu Province to Frontier Districts. In 1891 in addition to this change the present population of Frontier *Ilaqas* (persons 54,435, males 29,278 and females 27,157) has been added both to the Frontier District figures and those of the entire State.

5. The comparison of Gilgit figures made in the last Report is wrong as it ignored the fact that the Political *Ilaqas* were not enumerated in 1891 at all. The only comparison possible in regard to this unit is between the figures of the present census and the last which has been made in this Table.

TABLE IV.

TOWNS CLASSIFIED BY POPULATION WITH VARIATIONS SINCE 1891.

Jammu and Kashmir State, Census 1911.

1. In view of the local conditions and hilly nature of the country, towns and cities have not been determined merely on the basis of the Imperial population standard. Several *abadis* not conforming to the numerical test but having all other characteristics of a town or city have been classed as one or the other and shown in this and the following table.

2. Batala (Vatala) on the other hand which was shown as a town in 1891 with a population of 5,206 has not this time been treated as such, because as a matter of fact it possesses no urban characteristics.

3. The population shown against Gulmarg is delusive. The final Census having come off in winter, the figure shown here represents only the watchmen's population. Gulmarg is the chief summer resort of Kashmir with a large number of European houses and huts, shops, bazar, etc. It swells up to several thousands in summer.

4. The 1911 figures of Jammu city have been compared by deducting 458 persons from the population of 1891 and 1901. This is the population of such portions of the town as have been excluded since the last Census from its limits. The following is their detail :—

	Total.	*Males.*	*Females.*
(*i*) Railway area	*303*	*230*	*73*
(*ii*) Divisional Engineer's bungalow and out-houses	*48*	*35*	*13*
(*iii*) Shops, etc. on Satwari road	*66*	*58*	*8*
(*iv*) Bhattha Gulzari Shah	*36*	*21*	*15*
(*v*) Kunwan Shikar Purian and Segregation camp	*5*	*5*	...
Total ...	*458*	*349*	*109*

These places really form suburbs to Jammu, but they have in 'The Village Tables' been included in the Revenue villages to which they now territorially belong.

5. The towns are arranged in a descending order of population.

TABLE VI.

POPULATION BY RELIGION.

Jammu and Kashmir State Census 1911.

1. The religions have been classified and arranged on the plan adopted in the India Volume of the last Census Tables.

2. The Mohamedans have been shown only under two main sects *Sunnis* and *Shias* as per suggestion contained in Government of India $\frac{\text{Home Department}}{\text{Census}}$ No. 104, dated 29th April, 1910, and the consequent orders of H. H. the Maharaja Saheb Bahadur, received with Chief Minister's No. 5023, dated 15th September, 1910.

3. The *Shiah* figures include 24,910 (13,154 Male and 11,756 Female) followers of H. H. Sir Agha Khan, chiefly inhabiting the Political *Ilaqas* of the Gilgit Agency, who are locally called *Maulâis* and whose beliefs are more akin to Shiaism than Sunnism.

4. The Buddhist figures include the population of the Tibetan village, Mansar (Total 190; Male 111, Female 79) that was censused on special lines.

5. The single Bramho returned in the State was a European lady found in Srinagar at the Final Enumeration.

6. Two *Sansis* (a male and a female) and one female Megh in respect of whom the name of caste was entered instead of religion in column 4 have been included in Hindu figures.

7. The following is a list of the tribes which though returned and tabulated as Hindus occupy a "debateable ground" as far as religious status is concerned. Those in Italics are regarded as particularly unclean. The figures given below are only those that have been classed as Hindu (*Brahmanic.*)

TABLE VIII.

EDUCATION BY RELIGION AND AGE.

Jammu and Kashmir State Census 1911.

1. The arrangement of this table, both in respect of the territorial sub-divisions and the figures dealt with, is the same as that of table VII (*vide* §§ 1 and 4 of the title-page remarks on that table).

2. Detail has been given in this table only of such languages as are in vogue in the State to any considerable extent. Those with small figures have been grouped together under "others" and they are :—

I. Asiatic.—	Pashto	...	...	1
	Sindhi	...	...	2
	Bengali	...	...	4
	Karnatiki	...	...	1
	Gujrati	...	...	2
	Lande	...	...	323
			Total	333
II. European.—	German	...	...	1
			Grand Total	334

3. *Gurmukhi* is no *language*. It is only a *character* in which *Panjabi* is written. This script is quite different from *Nagri* or Hindi.

4. *Hindi* is the same as *Deva Nagri*, but its present figures include all the Sanskrit, Shastri, Nagri, totals on the one hand, and Bengali and Lande on the other. Persons literate in Bengali have been returned only 4 although the actual number of Bengalis here is very much larger and the present Lande figures are only 320 as against 2,396 of the last Census.

5. The figures of Arabic and Persian should also be read with caution, as the enumerator here has been quite apt to take the mere ability to read the *Qoran* for a real knowledge of the Arabic language and the people (especially in Kashmir) confound Persian and Urdu most inextricably in common parlance.

6. The figures in this table do not show the whole extent to which each language prevails except in case of English, as only the language best known by each person has been taken into account, although the number of languages known is not uncommon more than one. In case of English-knowing persons there is always a second language which has here so far been entirely Urdu. A special table has been prepared in this State which will be found at the end of Education Chapter in the Report Volume showing literacy in each language in its entirety.

7. The figures in this Table include Europeans and Anglo-Indians as well as Native Christians. The details for those who are literate are noted below :—

	Total Literate.			Literate in English.		
	Persons.	Males.	Females.	Persons.	Males.	Females.
European and Anglo-Indian ...	224	117	107	223	117	106
Native Christians	63	46	17	28	21	7

In addition there was 1 European female and 1 Anglo-Indian male both non-Christians who were literate in English.

TABLE IX.

EDUCATION BY SELECTED CASTES, TRIBES OR RACES.

Jammu and Kashmir State Census 1911.

---

1. This Table and Tables XIV and XVI deal only with a few typical castes, tribes, etc., selected with reference to their suitability to the subject of the table concerned.

2. Although the caste-totals dealt with here relate to the State as a whole and are the same in these three Tables, they will not be found agreeing with those given in Table XIII. This is because the classification for the latter was made afterwards and on different principles. A large number of persons returned under various designations were, upon enquiry, found to belong to one and the same major head of caste, etc. All these cases were included under such major heads for purposes of Table XIII, whereas they are excluded from Tables IX, XIV and XVI.

3. The figures for Christians, Budhists, Sikhs, etc., have not been shown in this Table and Table XIV as their literacy and civil condition are already seperately indicated by Tables VII and VIII. In Table XVI, however, Christian figures are set out under three main heads, *viz.*, Europeans, Anglo-Indians, and Native Christians.

TABLE X.

LANGUAGES.

Jammu and Kashmir State Census 1911.

The arrangement of the languages, dialects, etc., in this Table is in accordance with the classification scheme of Dr. Grierson. As distinguished from the method of the last census the languages have this time been arranged both territorially and Philologically all in one Table, the parts of the Table being :—

Part	I—Languages of the State.	
„	II—	„ India.
„	III—	„ Asia.
„	IV—	„ Europe.

Unclassified languages are shown separately at the end of Part IV. The arrangement within each group is alphabetical.

2. Certain names that formed only synonyms of others have been included together and the figures shown under the better known term, *e. g.*, Dardi and Dardistani or Jamwali and Dogri.

3. A greater detail of dialectical distinction having this time been gone into, certain very minute divisions were found to have been returned. Their figures have been thrown into the more important heads to which they belonged. These are discussed individually in the Report Volume.

4. The Sanskrit figures have been thrown into Hindi as it is not a spoken language at all.

5. Gilgit Agency and Mansar figures do not find a place here.

TABLE XI.

BIRTH-PLACE.

Jammu and Kashmir State Census 1911.

1. The units which were to be returned as birth-place were districts in case of the internal territorial divisions of the State, districts with the name of Province in case of British Indian Provinces and countries in case of places beyond India. The divisions of Kashmir Valley having come on rather late in the first year of our operations, the accuracy of figures for Kashmir North and South as Revenue districts cannot be fully vouched for, as the general public had not come to realise the distinction well by the time the Preliminary Record was prepared.

2. The arrangement of the birth-places in column 1 (except in case of our own internal divisions) is alphabetical within each major head. In arranging the birth-places the districts and countries adjoining the boundaries of the State have been shown first under separate heading as "Conterminous" and the rest under "Remote." The internal territorial divisions of the State are ranged on four consecutive pages for each unit of birth-place shown in the first column. The two cities have been shown separately at the end, but the figures of the Revenue districts to which they belong also include the city figures.

3. The districts within the State have all been shown in this table, but in the case of other Provinces the district is given only when emigrants from it exceed 300. The district figures in all such cases, therefore, do not work up to the Provincial total below which they appear.

4. As pointed out in § 3 of the title-page remarks to Table I, this table does not deal with the population of the Frontier *Ilaqas* (54,435 persons), the special schedule used there having had no column for registration of birth-places. Mansar figures (190 persons) have, however, been included as its inhabitants were all born where they live.

TABLE XII.

INFIRMITIES.

Jammu and Kashmir State Census 1911.

1. The infirmities recorded at the Census were insanity, deaf-mutism, blindness and leprosy.

2. The table is divided into two parts :—Part I shows the distribution by age of the entire afflicted population and Part II deals with distribution of the infirmities by territorial divisions of the State.

3. In addition to the above there is Table XII-A in which such castes, tribes, etc., as have a total number of infirms in excess of 10 have been shown seperately, and the rest put together under a general head "others." The detail of the latter is :—

Caste.	*Persons.*	*Caste.*	*Persons.*

Brukpa ...	... 3	Mazhabi ...	... 3
Bazigar ...	... 2	Naddaf ...	... 1

Koli ...	... 7	Castes not specified	... 356
Machhi ...	... 3	GRAND TOTAL	... 442
Memar ...	... 1		

4. The special tracts (*vide* title-page of Table I) do not, ofcourse, come within the purview of this table as the special schedule used there provided no column for record of infirmities.

5. For the purposes of this table persons suffering from more than one infirmity have been counted twice or three times over, according to the number of infirmities they were suffering from. The total number of such cases is, however, very insignificant. The same appears to have been done here at the previous Census.

TABLE XIII.

CASTE, TRIBE, RACE OR NATIONALITY.

Jammu and Kashmir State Census 1911.

1. This table is divided into three parts :—Part I— Hindus, Part II—Musalmans and Part III—Other Religions.

2. It deals with the entire population (except that of Europeans and Anglo-Indians) classified by caste, tribe, etc., the figures of each class being ranged under the various religions returned. All this detail is given in respect of the State as a whole as well as its internal territorial divisions. The total population returned under each head, irrespective of religion and locality, is also given as an Index to the table.

3. In making the classification, only such names have been shown separately as constitute real ethnic units either as castes and sub-castes, or tribes and races, or even true functional groups. Certain geographical names such as Baltis, Kashmiri Musalmans, Kashmiri Brahmans, etc., have also been retained, as the communities indicated by such terms are commonly recognised as distinct races. Differentiations, however, based *purely* on territorial, linguistic, occupational, titular and other similar distinctions such as *gotras*, nicknames, family-titles, etc., and whose number in this country is legion, have been carefully discarded.

4. Some of the divisions under the main castes, tribes, etc., were either of doubtful identity or were not of sufficient numbers and importance to be shown as separate 'sub-caste.' They have been grouped together under the general head "others" as a sub-division of the principal caste or tribe concerned. Similarly, the untraced and minor items under the three chief religions of the State have been classed together as 'Unclassified Hindus,' 'Musalmans' and 'Sikh' as the case was.

5. In case of Indian Christians, the original caste, tribe, etc., even when returned, have been disregarded and they have all been put together under the head 'Indian Christians.' Europeans and Anglo-Indians have been excluded from the table as they are dealt with by Table XVIII *infra* (*vide* the note to § 14, Chapter IV, p. 51, Imperial Census Code, Part II). Their detail by races and nationality is as follows :—

4. In the case of Military and Civil services, the persons under direct employment of the British Government have alone been shown in groups 139 and 144 and the rest under groups 140 and 145 as servants of this State. In group 146 are shown the servants of the Municipalities and of the internal Jagir Managements.

TABLE XVIII.

EUROPEANS AND ANGLO-INDIANS BY RACE AND AGE.

Jammu and Kashmir State Census, 1911.

1. This Table relates only to Europeans and Anglo-Indians, as no Armenians have been returned in this State.

2. The Districts of Jasrota and Udhampur and the Bhadarwah *Jagir* had no population of this class at the Final Census. Their names have therefore been left out.

3. The totals of the cities have separately been shown just below the districts in which they lie and totals of the entire district struck.

4. Of the total population of this class censused here, one European female gave her religion as Bramho and one Anglo-Indian male, Mohamedan. Both these units are included in this table, but in the tables dealing with religion they have been classed under the religions returned.
