CITY TABLE I.—BOMBAY.

AREA HOUSES AND POPULATION.

(Corresponding to Imperial Table I.)

NOTE.—For comparison with the same Table for 1911 it must be remembered that the entry "Harbours, Docks, Railway, Military & Homeless" on that occasion included the ordinary Resident population of Military, Customs, Royal Indian Marine, & Railway premises. On this occasion persons enumerated in residential premises of the above special units have been taken to the sections in which the premises are situated, and the corresponding entry "Harbour Islands, Railway Platforms, Floating population and Unknown" includes only such persons as on the Census night were not normally residents in Bombay, but were (except in the case of the population of the Harbour Islands who number only 213) of the nature of transient visitors and vagrants. Persons who, though not included for enumeration in any Census "house" were never-the-less ordinarily resident in Bombay and working there were enumerated by the ordinary Municipal enumerators. They totalled 13,695, and are counted to the sections in which they were enumerated. The entry "Unknown" relates to vagrants enumerated by the Police.

CITY TABLE I—AHMEDABAD.

AREA, HOUSES AND POPULATION.

(Corresponding to Imperial Table 1.)

City means that portion of the Municipal area which lies within the old City wall.

Puras means those portions of the Municipal area which lie outside the City wall. There are two of these Puras, named Pura A and Pura B. But as the Municipal authorities were unable to give separate areas for these or to define the portions of Asarva which fall in Pura A and Pura B respectively it was necessary both to combine the areas of the two Puras, and also in the case of Asarva to treat it as one unit. The unit "*Ellis Bridge*" includes also Kochrab.

Railway.—The population shown under "station" means in each case the residents of Railway premises. The population shown under "platform," means those persons found on the platforms on the Census night and enumerated there.

Cantonment Civil and Military means those persons enumerated by (1) the Cantonment Magistrate and (2) the selected Military Officer respectively. The distribution was a matter of area, and has nothing to do with the status or occupations of the persons enumerated.

The unit entitled "*special*" means the population enumerated by special enumerators detailed to find the homeless on the Census night.

CITY TABLES—KARACHI.

cvii

The "quarters" of the town shown in the Tables are in accordance with the expressed wishes of the Local Municipal authorities.

As regards the Municipality it seems that the quarter shown as "Frere Town" in the Tables includes Bath Island, Clifton and Ghizree. And the latter is, or was, in Cantonment limits. Consequently the Cantonment figures cannot be guaranteed as complete. Drig and other outlying Military areas are not included in the Tables at all, as they are not regarded as forming part of Karachi City.

The population shown as Railway Station is believed to be the residential staff of the Cantonment Station, and not travellers on platforms, none of whom were enumerated. The item "Railway Quarter including Workshop area" represents two distinct areas, one the Railway Quarter on the city side, and the other the Workshop area near the Cantonment Station, but excludes, apparently the Station itself.

"Scattered Hamlets" means all portions of the Municipal area which lie outside the so-called "quarters".

HOUSING TABLE I—BOMBAY TOWN AND ISLAND.

GENERAL CLASSIFICATION OF BUILDINGS BY USES.

The scheme of classification has been materially changed on this occasion with a view to rendering the Table more useful. The new scheme is modelled largely on the scheme used in England, subject to the necessary changes to suit local conditions.

Building in Bombay Town and Island means.—“The whole building under one undivided roof, or under two or more roofs connected *inter se* by subsidiary roofs”.

Bungalows and Dwelling Houses.—This includes blocks of flats, residential hotels, club chambers, etc.

Servants' Quarters includes cases of servants' quarters attached to or over kitchens, godowns, garages, stables, etc.

Chawl means a building containing a number of separate small tenements.

Factories, Shops, Offices, etc., combined with dwellings.—This is used in a wide sense, and includes all cases of buildings which contain partly offices (of all kinds including public offices), or shops, or rooms used for any commercial purpose, and partly rooms used as ordinary dwellings.

Institutions includes Hospitals, Jails, Asylums, Hostels, “Lines”, etc.

Huts includes tents, lean-tos, and all other temporary structures used as dwellings.

Institutions and Places of Amusement.—This includes Theatres, Assembly Rooms, Libraries, Gymkhanas, Club houses, Schools, Colleges and all Public buildings not combined with dwellings.

Factories, Mills and Works.—This includes all kinds of workshops and repair shops, and any building in which anything is manufactured, for instance a bakery.

Godowns, Stables, Garages, Sheds and Chowkies.—Here are placed all buildings in which any kind of stores are placed, or animals or conveyances are kept, or which are used for night or day watchmen to sit in, without constituting residential quarters.

The terms “Residential” and “Non-residential” refer to the *ordinary* uses of each building, and are irrespective of whether any person was or was not enumerated in the building on the Census night.

Buildings under the control of the Royal Indian Marine, Customs and Railways are shown separately at the end of each Section, and not in the Circle within which they are situated. Buildings under Military control are shown at the end of the table.

The figures in the Table include buildings under construction or demolition. These are also separately shown below for each Ward. But those under control of the Royal Indian Marine, Customs and Railways are not separated.

GENERAL CLASSIFICATION OF BUILDINGS—*concl'd.*

[illegible]

HOUSING TABLE II—BOMBAY TOWN AND ISLAND.

CLASSIFICATION OF BUILDINGS BY THE NUMBER OF FLOORS CONTAINED IN EACH.

This Table explains itself. It is in the same form as in 1911, except that the number of floors is carried in the supplement to seven, which is the greatest number recorded.

The buildings included in this Table are the same as in Housing Table I.

HOUSING TABLE III—BOMBAY TOWN AND ISLAND.

RESIDENTIAL BUILDINGS CLASSIFIED ACCORDING TO THE NUMBER OF
TENEMENTS CONTAINED IN EACH.

This Table deals with Residential Buildings only, for the definition of which see the Notes to Housing Table I. The number of Residential Buildings treated in this Table falls short of the number of Residential Buildings shown in Housing Tables I and II by 351. This is due to the two following reasons—(1) In those Tables buildings under construction or demolition were included, but are here excluded, and (2) those Tables were compiled from the House Lists prepared at the time of house-numbering in October and November 1920, whereas the present Table is compiled from the Enumeration records prepared in February and March 1921.

All Residential Buildings not under construction or demolition are included, whether occupied at the time of the Census or not. In the same way all tenements are counted, whether occupied or vacant.

Tenement means so much of a building as from the records is shown as occupied (or in the case of vacancies as normally occupiable) by a separate family—

Provided—that since it is not possible to consider a single room as constituting more than one tenement, such single rooms as at the Census were occupied by more than one family are counted as one tenement each.

HOUSING TABLE V—BOMBAY TOWN AND ISLAND.

DISTRIBUTION OF PERSONS BY ROOMS IN RESIDENTIAL BUILDINGS.

This Table is prepared for Residential buildings, as there is no advantage in knowing the distribution of persons by rooms in other buildings, and there is a danger of the figures for Non-residential buildings introducing misleading factors. Unoccupied Residential buildings are not included.

The population shown in the ninth column is the persons actually enumerated in Residential buildings. It does not include—(i) persons enumerated in Non-residential buildings (see Supplement to Housing Table IV), and (ii) persons not enumerated in any building at all but included for City Table I in the population of Sections (see Note to City Table I).

HOUSING TABLES—KARACHI.

The definition of " Building " adopted at Karachi for the 1921 Census is as follows :—

" House " means—

Premises under one undivided roof whether let off into tenements or not (one such tenement would be given a number, thus 12, and the other tenements 12—1, 12—2, 12—3, etc.).

Provided—that in the case of a terrace of dwellings or semi-detached bungalows, each such dwelling with separate access to the public street, divided off by party walls and occupied by one family from the ground upwards shall be considered to be a separate house although the roof of the terrace, or semi-detached bungalow, may be a continuous one; such cases will include dwellings of ground floor only, and of two or more floors, and each house to be given a separate number.

NOTE.—In the case of blocks of buildings forming servants' quarters to a bungalow, each of such blocks shall be classified as one house, the separate tenements being numbered as above for premises under one undivided roof, according to the number of separate families occupying the same.

Otherwise the Tables follow the Bombay Housing Tables, and all definitions there given apply.

The Tables are for the Municipal Area only, and do not include the Cantonments.
