

TABLE II.

VARIATION IN POPULATION SINCE 1872.

THIS table compares the population as now ascertained with that of the four previous censuses. The figures for the latter differ slightly from those shown in the old Census Reports in all districts except Chittagong and Chittagong Hill Tracts. This is due to subsequent changes of jurisdiction, i.e., transfers of area from one district to another. The effect of these changes on the population of the districts concerned has been calculated, and the figures have been adjusted accordingly.

The following are the districts which have undergone changes of jurisdiction:—

Between 1872 and 1881—

Burdwan, Birbhum, Bankura, Midnapore, Hooghly, 24-Parganas, Murshidabad, Jessore, Rangpur, Mymensingh, Faridpur, Backergunge, Tippera and Noakhali.

Between 1881 and 1891—

Burdwan, Birbhum, Midnapore, Hooghly, Nadia, Darjeeling, Rajshahi, Jalpaiguri, Bogra, Malda, Dacca, Mymensingh, Faridpur and Tippera.

Between 1891 and 1901—

Hooghly, Howrah, Rajshahi, Dinajpur, Jalpaiguri, Bogra, Pabna, Dacca and Faridpur.

Between 1901 and 1911—

Burdwan, Hooghly, Nadia, Rajshahi, Dinajpur, Jalpaiguri, Rangpur, Bogra, Pabna, Malda, Dacca, Mymensingh and Faridpur.

The Province as now constituted lost 616 persons by transfer from Jalpaiguri to Goalpara between 1891 and 1901 and 2,535 persons by transfer from Malda to Purnea between 1901 and 1911.

In 1906, the control of the State of Sikkim, with an area of 2,818 square miles and a population (according to the census of 1901) of 59,014 persons, which had till then been attached to the Lieutenant-Governorship of Bengal, was taken over by the Government of India.

TABLE III.

TOWNS AND VILLAGES
CLASSIFIED BY POPULATION.

IN this table, as in Tables I, IV and V, cantonments have been treated as forming part of the municipalities which they adjoin.

IN the Rajshahi, Dacca and Chittagong Divisions and in Hill Tippera the residential village or group of houses, bearing a separate name, has been taken as the village, small outlying hamlets being treated as part of the main residential village to which they appertain. Elsewhere the census village corresponds to the mauza.

EDUCATION.

THIS table, like Table VII, is divided into three parts. *Part A* shows the extent of literacy in the Province as a whole amongst the total population and for each religion returned. *Part B* gives details for Districts for the total district population and for each main religion. *Part C* gives similar details for Cities.

The table shows the number of persons literate in any language as well as those literate in English, the figures in columns 11 to 13 being included in those in columns 5 to 7. The test of literacy adopted at the census was the ability to *both* read and write a letter, persons of whatever age who could write a letter to a friend and read the answer to it being entered as literate, and those who could not do so as illiterate.

The following statement shows the number of literate persons among Indian Christians and other Christians such as Europeans, Armenians and Anglo-Indians:—

Race.	Population.									Literate in English.

TABLE IX.

EDUCATION

BY SELECTED CASTES, TRIBES OR RACES,

THIS table repeats the information given in Table VIII in respect of education, with this difference that, whereas in that table the population is distributed by age and religion, it is here arranged according to caste or tribe. Moreover, in Table VIII, the whole population is dealt with, but this table refers only to selected castes and tribes; the minor castes and tribes have been left out of account altogether, and even those selected for inclusion have been taken only for the districts where they were specially numerous. To save space, figures have been given, not for each district separately, but for groups of districts, the local conditions of which may be presumed to be fairly uniform.

It may be explained that the total district strength of a caste in this table does not necessarily tally with that in Table XIII, as the latter includes figures added in the course of classification, which the present table does not. The strength of some castes also is not the same as in Table XIV owing to the fact that figures have been compiled for different local areas.

TABLE XII.
INFIRMITIES.

THE infirmities recorded are the same as in 1901, *viz.*, insanity, deaf-mutism from birth, total blindness and leprosy.

The table is divided into two parts—Part I shows the distribution of the persons afflicted according to age, and Part II their distribution according to locality. Statistics are also given in Table XII-A of the infirmities from which certain selected castes suffer.

Persons who were returned as suffering from more than one infirmity have been shown under each. The totals entered under "Population afflicted" in columns 2, 3 and 4 consequently do not agree with the totals for each infirmity. The following statement shows the number of persons afflicted with more than one infirmity :—

(a) *BENGAL.*

	Persons.	Males.	Females.

*The figures relate only to the portion of the Presidency which formed part of Bengal at the time of the Census.

†The figures relate to Eastern Bengal only.

TABLE XIII.

CASTE.

THIS table is divided into two parts. Part A gives statistics for the castes and tribes of Hindus, Animists, Buddhists and Jains, and Part B for Muhammadans. The figures for Christians are omitted from this table, as they are dealt with in Tables XVII and XVIII.

In the Burdwan and Presidency Divisions and in Darjeeling and Cooch Behar statistics have been compiled only for selected castes while in Eastern Bengal all castes have been dealt with. Against each caste, not dealt with in the former, an asterisk has been put and a foot-note added showing that statistics for it have been compiled in Eastern Bengal only.

Castes which are numerically insignificant, and which are either of foreign origin or too localized for separate entry, are grouped together under the head "Minor Castes" in each part, details being given for them in the appendix printed at the end of the table.

As a rule, persons converted from Hinduism or Muhammadanism to Christianity were returned as "Native Christian," and their caste of origin was not mentioned in the census schedules. In the case of converts belonging to aboriginal tribes, however, the name of the tribe was frequently given, and the number so returned has been noted in the remarks column of the table.

Where some members of a caste or tribe profess one religion and some another, separate figures have usually been given for each; but if the second religion was returned only in respect of a very small number of persons, the figures for it have been added to those for the main religion, and the number so added has been noted in the column of remarks.

As far as possible, groups that are not true castes have been eliminated from the table, and the figures for them added to those for the castes to which they appeared to belong after such enquiries, local and otherwise, as it was possible to make within the limited time available. The more important of these groups are mentioned in the remarks column.
